

Mrs. Nuria Gil Mayo

Nuria Gil Mayo, more than 15 years experienced professional within the medical devices technology sector, with technical/engineering background, and working for the multinational company Philips.

Solid technical background in the quality and regulatory area, where Nuria started her professional career, mainly focused on the post-market surveillance area (i.e. complaint handling, safety corrective actions, etc.) and continuous process improvement.

Since 2015, she holds leadership positions in Philips and since 2019, leading the Service and Solutions area, driving the business, operations, and delivery of the Philips healthcare portfolio during their entire lifetime, fulfilling the healthcare facilities needs in terms of product quality and efficiency to maximize patient outcomes.

Nuria enjoys her free time with her family, mainly with her two lovely little kids, Olivia and Eric.
