Dr. Georges Romero (France)

Medical Director, Risk Management,
Relyens

Board-certified in Anesthesiology and Critical Care Medicine, Georges Romero practiced for more than 20 years in leading tertiary and university hospitals in France.

His expertise covers perioperative care, patient safety, operating theatre governance, and clinical risk management. He also played a key role in healthcare quality and safety assessment as an Accreditation Expert for the French College of Anesthesiologists and Intensive Care Physicians (CFAR) and as a Lead Surveyor Coordinator for the French National Authority for Health (HAS).

Since January 2021, he has been serving as Medical Director of Risk Management at Relyens, helping healthcare organizations prevent and manage risks to make healthcare safer for all.
