

Ms. Mariana Svirchuk (Ukraine)

Director of Development and Investment Engagement, First
Territorial Medical Union of Lviv,
Director, School of Medicine, UNBROKEN University (Ukraine)

Mariana Svirchuk is Director of Development and Investment Engagement at the First Territorial Medical Union of Lviv and Director of the School of Medicine at UNBROKEN University. She combines a medical background with an MBA and more than 15 years of operational management experience in complex healthcare settings.

The First Territorial Medical Union of Lviv is the largest municipal healthcare network in Lviv, comprising four hospitals, rehabilitation centres and a network of outpatient clinics. The UNBROKEN ecosystem has been developed on the basis of the Medical Union

to provide comprehensive support to people affected by the war, regardless of their status, age or region of origin. It brings together reconstructive surgery, prosthetics, physical and psychological rehabilitation, and reintegration support for both adults and children.

As Director of Development and Investment Engagement of the Medical Union, Mariana led the institution through this transformation. She now develops its international and donor partnerships and leads the School of Medicine, an educational platform for healthcare leaders working with trauma, complex systems and interdisciplinary care.
